* If accessible

** These parts are only replaced on a Major Service only

*** Software permitting

Our servicing offers a comprehensive inspection of the majority of all makes and models of vehicles, it does not cover all items that some vehicles may require at certain intervals such as replacement of; Glow Plugs, Diesel Particulate Filters, Ad Blue, Transmission oils, Auxiliary Belts and Tensioners. Please refer to your vehicle manufactures recommendations for these items.

TIMING BELT REPLACEMENT

There is no way of measuring the extent of wear of a timing belt, as a preventative measure make sure that you replace your timing belt in accordance with the manufacturers recommendations to prevent expensive engine damage. We can carry out timing belt replacement on most makes and models at a significantly **£POA** reduced price compared to franchised dealerships.

IS YOUR VEHICLE STILL UNDER WARRANTY?

We can service and repair your car without invalidating your manufacturer's warranty. As we have every manufacturers service schedule on hand and will use genuine parts, we can provide servicing at a significantly reduced price compared to franchised dealers. **£POA**
